Section I CMS Program

The San Diego County Medical Services (CMS) Program is not a health insurance program; it is the program of last resort for eligible adults, covering only necessary medical services. Although the CMS Program reimburses specialty and ancillary providers at interim Medi-Cal rates, it differs from the Medi-Cal entitlement program. Services are limited to the Program Medical Criteria.

AmeriChoice

AmeriChoice serves as the CMS Program Administrative Services Organization (ASO) and administers day-to-day activities including case management and coordination of care, utilization review and prior authorization, patient and provider relations, claims payment financial management and program development and analysis.

Questions and concerns about the operations of this program should be directed to:

**AmeriChoice
CMS Program Provider Relations
PO Box 939016
San Diego, CA 92193
(858) 492-4422**

Section II Eligibility

To be eligible for CMS services, patient must:

- Have an immediate or chronic health condition
- Be a US citizen or eligible alien
- Be a resident of San Diego County
- Be 21 through 64 years old
- Not be linked to Medi-Cal (aged, blind, CalWORKS or disabled)
- Be within CMS income limits or receive General Relief
- Be within CMS resource limits
- Sign a lien for services covered by CMS

Financial Criteria

Financial eligibility criteria for the CMS Program are based on resources and income. Resources include, but are not limited to: cash, funds in checking and savings accounts, and real property other than the patient's primary home.

Citizenship/Eligible Alien Status

Patients must have U.S. Citizenship or eligible alien status and must provide proof before certification.

Residency

Patients must live in a primary residence located in San Diego County and must provide proof of residence before certification. A fixed address is not required. Patients living on the streets or in a vehicle can be county residents. Patients "visiting" from other counties, states, or countries are not eligible.

Eligibility Appointments

Human Services Specialists (HSS) are located in select Community Health Centers and Public Health Centers and local hospitals. HSSs are County employees responsible for determining CMS eligibility. Eligibility appointments with HSSs at the Community Health Centers and Public Health Centers are scheduled by calling (800) 587-8118. Patients requesting ongoing CMS must provide a completed Medical/Dental Need Form (CMS-127) to CMS prior to requesting an eligibility appointment. Eligibility appointments with HSSs at the hospitals are scheduled by hospital staff or the Hospital Outstationed Services (HOS) HSS.

County of San Diego County Medical Services (CMS) Program

Hospital Handbook

County Medical Services (CMS) Medical/Dental Need Form (CMS-127)

The CMS Program is defined as a program of last resort for indigent individuals who have a serious medical need. CMS is not health insurance and addresses only urgent health issues. The medical/dental form must be completed by a licensed or certified health care professional or a designee authorized as appropriate by the health care professional and mailed or faxed to CMS Administrative Services Organization (AmeriChoice) before patients can schedule their next certification appointment.

A CMS-127 is **not** needed then:

- AmeriChoice has an approved Treatment Authorization Request (TAR) waiting to be used and the CMS certification is expiring. An approved TAR is verification of a medical need.
- A CMS inpatient (as identified in the Hospital Outstationed Services (HOS) Policy and Procedures manual) has been hospitalized and referred to HOS. The hospital admission is verification of a medical need.
- Beneficiaries identified by AmeriChoice as having a chronic medical condition.

CMS Eligibility

Patients apply for CMS eligibility by completing an application and providing verifications to an HSS. The HSS reviews the application and verifications, and makes the decision to approve or deny. The HSS provides a blue CMS ID card and Patient Handbook to CMS approved patients. Initially, patients are approved for a period of 1 to 3 months. Upon renewal, patients with asthma, diabetes and/or hypertension may be approved eligibility for up to twelve (12) months. Patients receiving General Relief do not complete an application or submit verifications. After verifying the patient's identity and receipt of General Relief, the HSS gives the patient a blue CMS ID card and a Patient Handbook.

CMS Hardship Waivers

Denied for excess income. Patients who have been denied CMS for the **sole** reason of excess income may apply for a CMS Hardship Waiver. If the CMS Hardship Waiver is approved, and the patient is otherwise eligible, CMS will be granted and the patient will be provided with the appropriate CMS Identification Card. If the CMS Hardship Waiver is denied, the patient is ineligible for CMS.

CMS Hardship Waiver applications are evaluated by the County of San Diego.

County of San Diego County Medical Services (CMS) Program Hospital Handbook

When a non-certified patient requires **immediate** medical care that the clinic cannot provide, the patient should call the CMS Patient Information Line (858) 492-4444 or from North County (760) 471-9660. The Administrative Services Organization (ASO) will evaluate the patient's medical need and if all CMS criteria are met, the AmeriChoice representative will contact the County Eligibility Unit to schedule an urgent eligibility appointment. Following notification of approved eligibility, AmeriChoice will arrange and authorize appropriate care.

The patient should notify the customer service representative that they were treated in an emergency room and provide the date that the treatment took place. The patient will be required to provide documentation to verify the emergency room service date.

Inpatient Care

The patient should notify the customer service representative that they were hospitalized and provide the date that the treatment took place. The patient will be required to provide documentation to verify the date s/he was hospitalized.

The patient should inform the customer service representative of the date of the scheduled service. AmeriChoice will evaluate the patient's medical need and if all CMS criteria are met, AmeriChoice will contact the County Eligibility Unit to schedule an urgent eligibility appointment. Section V Inpatient and Emergency Department Services

Inpatient Services

Inpatient services are services provided to a patient who is admitted to a hospital and receives medical services from a physician during at least a 24-hour period. CMS contracting hospitals are required to notify AmeriChoice within twenty-four (24) hours (extended to the first day following a weekend or holiday) of any admission of a CMS (or potential CMS) patient. The hospital stay shall be subject to retrospective medical review by AmeriChoice, which may result in disallowance of all or some patient days. For more information on how a potentially eligible CMS patient may apply for CMS coverage of the inpatient service, please refer to Section II of this handbook. Physicians who have treated a CMS certified patient on an emergency inpatient basis will be paid for these services with an approved admission.

- A single authorization number is provided to the hospital for all facility and physician services provided during that hospital stay.
- Authorizations for emergency admissions are processed and approved only when eligibility is confirmed. Authorization numbers are not released until the eligibility process is complete.

Scheduled Admissions and Outpatient Surgery

Outpatient services are services provided to a patient who has been registered or accepted for care but not formally admitted as an inpatient and who does not remain over 24 hours. Scheduled, non-emergent admissions and outpatient surgical procedures must be prior authorized by submitting a Treatment Authorization Request to AmeriChoice. AmeriChoice sends written confirmation to both the ordering physician and the facility that indicates the approved procedure(s) and the valid dates for service. Prior approval includes pre-operative diagnostic tests for scheduled surgical admissions and outpatient surgery. These procedures must be provided during the approved time period. For information on how a potentially eligible CMS patient may apply for CMS coverage of the outpatient or emergency department service, please refer to Section II of this handbook.

Emergency Room (ER) Services

Approved emergency services must meet the following conditions:

- The patient must show a valid CMS ID Card.
 - The ER and associated services are covered for CMS certified patients (CMS cardholders) at both contracted and non-contracted hospitals
- The condition must be included in the CMS covered services (Section III, Page 1) and must be medically necessary (ER visits for follow-up or prescriptions are not covered)
- The place of service listed on the claim form must be the ER

County of San Diego County Medical Services (CMS) Program Hospital Handbook

Covered Emergency Room Services

- All facility, technical services and supplies provided during the emergency room episode are included in the hospital's reimbursement
- Emergency physician, specialty physician and ambulance services are claimed and paid separately and must have occurred during the approved ER episode
- DME that is given to the patient during or after the ER episode is paid separately only when authorized by CMS

Emergency Room Follow-Up

All patients must receive information about how to obtain follow-up care through the CMS Program when they are discharged from the ER.

- Certified patients are encouraged to contact their primary care physician for continued care of referral
- Standard eligibility and prior authorization are required for additional services, including follow-up by a specialty physician
- The primary care clinics are notified quarterly of their patients' ER visits and are encouraged to contact patients for follow-up care with their primary care physician

Section VI Medical Management

CMS has registered nurses who hold valid California nursing licenses. The nurses receive face sheets from contracting and non-contracting hospitals and censuses from contracting hospitals identifying patients who are CMS-certified or who are pending certification. The nurse case managers review these documents for high-risk indicators and they also review the medical records of CMS patients to determine if:

- The admission is appropriate
- The length of stay is appropriate
- Continued inpatient care is medically warranted
- There is a discharge plan
- The discharge plan is safe and appropriate
- The patient requires placement upon discharge
- The discharge planner, social worker, or case manager has started the placement process
- A referral to Medi-Cal for a disability evaluation is appropriate

Discharge Planning for Placement

When the hospital discharge planner identifies a patient who needs placement in a room and board or board and care facility, the discharge planner must notify the ASO Case Management Department at (858) 495-1300. To be considered for placement the patient must be CMS certified and also must have obtained approval by the ASO Case Manager. Additionally, the patient must also:

- Live in an inadequate environment or lack support from family or friends;
- Need care and supervision following hospitalization; or
- Require stabilization due to medical condition.

Discharge Planning for High-Risk Patients

The discharge planner should call the ASO Case Management staff at (858) 495-1300 when a CMS certified patient is an inpatient with one or more of the following high-risk indicators:

- Tuberculosis (TB)
- Transportation issues, based upon medical need
- Homelessness (concomitant medical diagnosis is required)
- Drug and/or alcohol abuse
- Limited mental functioning
- Illiteracy
- Multiple physicians
- Complex or chronic medical conditions

County of San Diego County Medical Services (CMS) Program Hospital Handbook

The discharge planner must give the following information to the ASO Case Manager:

- Patient name
- Social Security Number
- Date of birth
- Date of admission
- Projected date of discharge
- Diagnosis (Admitting, Working, and/or Discharge)
- Discharge plan request
- Patient's location
- Medical records (upon request)

The ASO Case Manager will:

- Make a hospital visit
- Complete an intake form
- Review the patient's chart
- Assess the patient for the appropriate level of care
- Identify the most appropriate room and board or board and care facility, and arrange placement if placement criterion are met
- Notify the discharge planner of the location of the facility (Note: hospitals are responsible for providing transportation upon discharge)
- Initiate a CMS-5 Medi-Cal disability referral, if appropriate.

Medication upon Discharge

The hospital is responsible for providing no less than a full course of antibiotics and/or 3-day supply of medication at time of discharge to avoid unnecessary complications after hospitalization.

Services and Equipment after Discharge

The hospital discharge planner must submit all post-discharge requests for ongoing services and equipment needed to the ASO Case Manager for authorization. The ASO Case Manager will evaluate the patient for:

- Acute inpatient rehabilitation
- Outpatient rehabilitation
- Home health
- Home infusion
- Durable medical equipment

County of San Diego County Medical Services (CMS) Program Hospital Handbook

The ASO Case Manager may ask the discharge planner for additional information such as, history and physical; operative reports; lab results; MRI results; physical therapy/occupational therapy/speech therapy notes; discharge summary and/or instructions that support the need for post hospitalization services and equipment.

In Home Care

For patients discharged home, the ASO Case Manager can authorize certain services and medical supplies, including the following:

- Nursing assessments
- Wound care
- Home infusion therapies
- Home rehabilitation therapies
- Durable medical equipment (DME)

Treatment Plans

ASO Case Managers coordinate treatment plans by authorizing inpatient and outpatient rehabilitation, assisting with scheduling services, and making referrals to other community-based services.

Transportation

ASO Case Managers can help CMS certified patients who satisfy CMS transportation assistance criteria get transportation to medical appointments.

Public Assistance

ASO Case Managers can help CMS certified patients apply for other benefits such as General Relief (GR), Medi-Cal Disability, and Supplemental Security Insurance (SSI).

Contracting Facilities

A listing of primary care clinics, contracting hospitals and pharmacies can be found in Attachment A.

County of San Diego County Medical Services (CMS) Program Hospital Handbook
